ARTICLE 1: How should plastic packaging of fruit and vegetables be dealt with in the EU?

It should be banned.

MY OPINION

People should pay 1 € extra for each plastic packaging.

Companies should voluntarily give up plastic packaging.

WHY?

- Every person should decide for themselves whether they want to buy fruit and vegetables in plastic packaging or not. Most people reject bans.
- The plastic industry employs 1.5 million people across Europe. Their jobs are at risk if a plastic ban comes into effect now.

VOLUNTARY INFO

Get to know me better!

Who am I?

I am 43 years old and I come from near Warsaw (Poland).
I have two daughters and a dog.

Why am I in politics?

I think it's sad that more and more traditions and values are disappearing.
To prevent that, I do my best every day in parliament.

What is my job?

I am a Member of the European Parliament. There I negotiate with 719 others about what new laws there should be.

Sounds exhausting?

It really is, but I am not alone!
Everyone in the conservative group has the same goals:
The preservation of traditions and a good economic policy.

This happens step by step:

1 Meet in your country group

Meet the other members of Parliament from Poland. Explain your positions.

2 Meet in your parliamentary group

Agree on common goals in your parliamentary group.

3 Committee meeting

Represent your position in the Industry Committee.

4 Meet in your parliamentary group

Get an update on how negotiations are going.

5 Committee meeting

Try one last time to get your positions accepted.

FINALE Plenary

Vote in plenary with all the other 719 MEPs on the new EU law.

ARTICLE 2: When should the law take effect?

immediately | in 2 years | MY OPINION **in 10 years**

WHY?

- New packaging has to be invented first. Also, companies have to buy new machines to make this new packaging.
