ARTICLE 1: How should plastic packaging of fruit and vegetables be dealt with in the EU?

It should be banned.

People should pay €1 extra for each plastic packaging.

Companies should voluntarily give up plastic packaging.

WHY?

- Bans take away people's freedom. People don't like such laws. That's why companies should do something voluntarily.
- People can decide for themselves: If they don't want plastic packaging, then they can buy unpackaged fruit and vegetables.

MORE REASONS/NOTES:

Get to know me better!

Who am I?

I am 45 years old and come from Munich.
I have a software development company there.

Why am I in politics?

There are more and more rules. That makes everything much more complicated.
Especially the economy suffers from it. I want to change that.

What is my job?

I am a Member of the European Parliament. There I negotiate with 719 others about what new laws there should be.

Sounds exhausting?

It really is. But it's worth it. Besides, I'm not alone!
Everyone from the Liberal Group has the same goals:
Freedom for the people and no unnecessary rules for the economy.

This happens step by step:

ARTIKEL 2: Ab wann soll das Gesetz gelten?

immediately

in 2 years

in 10 years

WHY?

- Many people will lose their jobs because plastic companies are closing down.
- They need time to find a new job. Some will have to learn another profession. In 10 years they can do it.
