## ARTICLE 1: How should plastic packaging of fruit and vegetables be dealt with in the EU?

It should be banned.

People should pay €1 extra for each  
plastic packaging.

**Companies should voluntarily  
give up plastic packaging.**

### WHY?

- I hate it when the EU issues bans. People should be free.
- In the supermarket fruit and vegetables with and without plastic are both offered. People can decide for themselves whether the plastic bothers them or not.

### MORE REASONS/NOTES:

---

---

## Get to know me better!

### Who am I?

I am 40 years old and come from Bochum. I used to work for a security company.  
Since I have a child, that has become too dangerous for me.

### Why am I in politics?

I want the EU to disappear. Germany is a proud country.  
The people here should decide for themselves about their future.  
All laws should be made in Germany again.

### What is my job?

Ich bin Abgeordnete\*r im Europäischen Parlament. Dort verhandle ich mit 719  
anderen darüber, was für neue Gesetze es geben soll.

### Sounds exhausting?

It really is. But someone has to do it. Besides, I am not alone! Everyone in the  
anti-EU faction has a common goal:  
pushing back against the EU so that countries in Europe can be freer again and  
the EU does not dictate everything anymore.

## This happens step by step:

## ARTICLE 2: When should the law take effect?

immediately

in 2 years

in 10 years

### WHY?

- The best thing would be no new rules at all. The later, the better.
- If plastic is so bad, it will disappear by itself. People will just stop buying it at some point.
