My Tasks and Goals

J. Bennattar

ARTICLE 1: How should plastic packaging of fruit and vegetables be dealt with in the EU?

It should be banned.

People should pay €1 extra for each plastic packaging.

Companies should voluntarily give up plastic packaging.

WHY?

- Plastic packaging must disappear from the shelves immediately.
- Huge amounts of plastic are already entering the oceans and becoming tiny micro-plastics. This ends up in our food.
- Voluntary solutions do not work. They are just empty promises.

MORE REASONS/NOTES:

Get to know me better!

Who am I?

I am 26 years old and live in Paris (France). Before I was elected to the European Parliament, I built furniture in a carpentry workshop.

Why am I in politics?

My parents' generation left us a broken planet. Something must be done quickly. Only then can nature recover. Young people must have more influence on politics.

What is my job?

I am a Member of the European Parliament. There I negotiate with 719 others about what new laws there should be.

Sounds exhausting?

It really is, but that's the only way to change things. Besides, I am not alone! Everyone in the Green Group has the same goal: an environmentally friendly and just Europe.

This happens step by step:

Meet in your country group

Meet the other members of Parliament from France. Explain your positions.

**Meet in your
parliamentary
group**

Agree on common goals in your parliamentary group.

Committee meeting

Represent your position in the Environment Committee.

4

Meet in your parliamentary group

Get an update on how negotiations are going.

 **Committee meeting**

Try one last time to get your positions accepted.

FINALE

Plenary

Vote in plenary with all the other 719 MEPs on the new EU law.

ARTICLE 2: When should the law take effect?

**MY
OPINION**

immediately

WHY?

- People can no longer wait for something to happen.
- Time is running out! If we do nothing, nature will suffocate in plastic.
