ARTICLE 1: How should plastic packaging of fruit and vegetables be dealt with in the EU?

It should be banned.

**People should pay €1 extra
for each plastic packaging.**

Companies should voluntarily give up
plastic packaging.

WHY?

- Every person should decide for themselves whether or not to buy fruit and vegetables in plastic packaging. Most people reject bans.
- The plastic industry employs 1.5 million people across Europe. Their jobs are at risk if a plastic ban is introduced now.

MORE REASONS/NOTES:

Get to know me better!

Who am I?

I am 60 years old and I come from near Warsaw (Poland).
I have two daughters and a cat.

Why am I in politics?

I find it sad that more and more traditions and values are disappearing.
To prevent this, I do my best every day in Parliament.

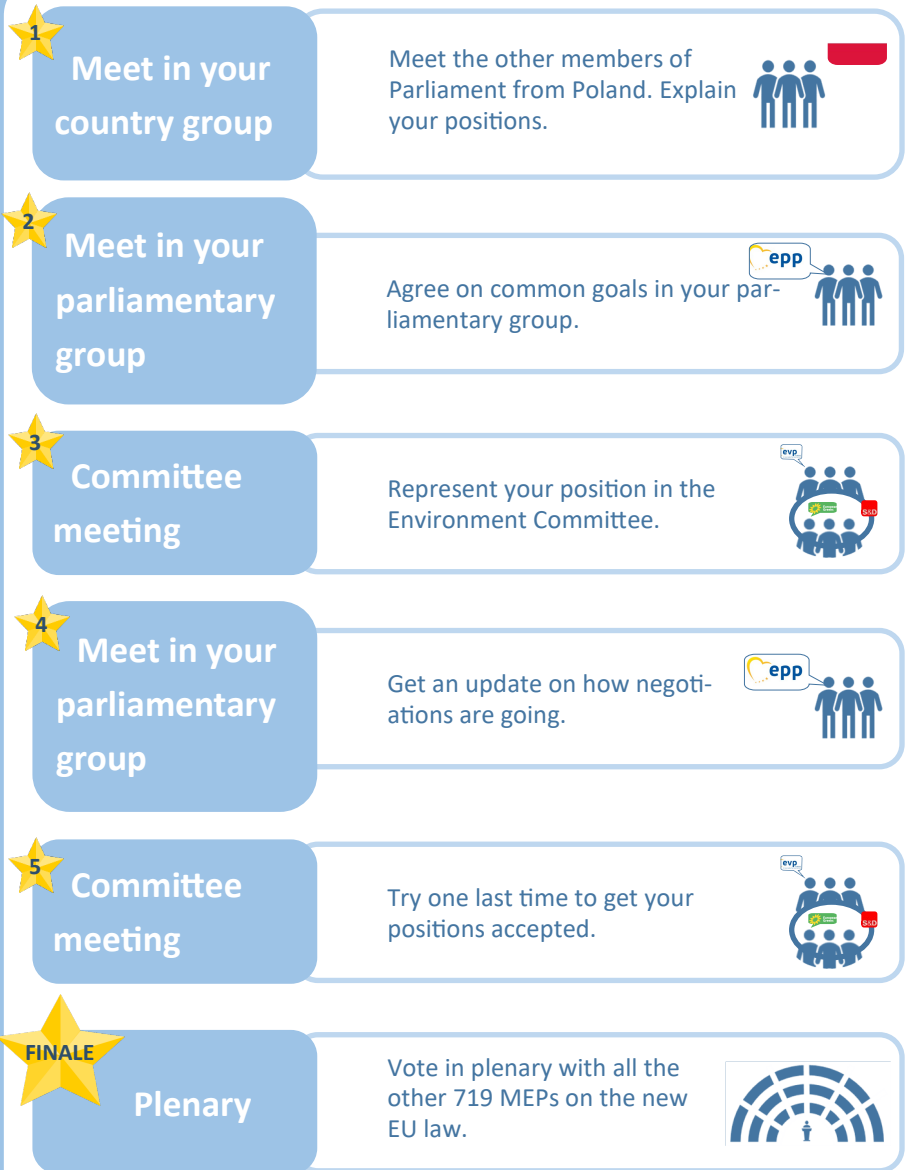

What is my job?

I am a Member of the European Parliament. There I negotiate with 719 others
about what new laws there should be.

Sounds exhausting?

It really is, but I am not alone! Everyone from the conservative group has the
same goals: The preservation of traditions and a good economic policy.

This happens step by step:

ARTICLE 2: When should the law take effect?

immediately

in 2 years

in 10 years

WHY?

- New packaging has to be invented first. And the companies have to buy new machines to produce this new packaging.
